The Victory Loan.

For the fifth and last bond of the United States Government, issued by the war but recently a successful close, is now on continue until May 10th. Money's quota in this instance is quite a large sum in view of the fact that have prevailed for four years.

Medina county has never failed in the past and we do not believe we will do it in this instance. We are now much more favorable than in any of our previous years, and the liberal installment plan adopted will enable many who not otherwise be able to buy to do so.

Bonds are gilt-edged and no securities could be found. They are backed by the total wealth of the United States—the wealthiest country in the world—and there is absolutely no doubt about their payment on the their redemption—May 20th, 1920. At that time you will be attached to your bonds that regret the approach of their maturity. They bear at the rate of 4 3/4 per cent, semi-annually, another feature which make the investment very safe.

The United States Government has defaulted in any obligation, stronger today financially and more than at any period in its history. European governments owe the United States billions of dollars, and that peace reigns payments debts will begin, and this is a security for your bonds. In the wealth of the world is behind the United States bond, and every nation of the money power can longer keep them from going to the United States.

The installment plan of purchasing the communication of Judge in another column. Put Medina county "over the top" what will probably be the last of the government the generation will be asked to do.

Body Exhumed.

Owing to a direct conflict in the evidence adduced in the case of The State vs. N. W. Ward, charged by indictment with murder growing out of the slaying of a Mexican tenant on the Ward farm on the morning of April 17, the body of the deceased was ordered exhumed by the court for examination by two of our physicians. One of the state's witnesses testified that deceased came to his death from a gunshot wound in the back of the head. As this would have changed the whole aspect of the case, if true, on motion of District Attorney Brucks, the court ordered the body exhumed and an examination of the head made for bullet wounds. The physicians making the examination reported to the court that no wounds were found on the skull. As the whole case hinged on the report of the physicians the case was submitted to the jury without argument by either the attorneys for the defense or the state. A verdict of acquittal was promptly rendered.

The court certainly made a record in the disposition of this case. The homicide was committed on the morning of April 17th; in the afternoon of the same day the grand jury returned an indictment charging murder; on Saturday, April 18th, defendant was released on bond following habeas corpus proceedings; the case was called for trial on April 28th, and on the 29th, or just twelve days from the commission of the offense, a verdict of acquittal was rendered by the jury and the case was out of the court.

The usual complaint of "the law's delays" certainly does not apply in this case. It is probable if the trial of all cases that find their way into the court were disposed of with equal expedition the result would be greater respect for the courts.

Indicted for the Murder of Ed. Breiten.

Del Rio, Tex., April 29.—Boye and Walter Babb and their brother-in-law, Will Wise, who operate a ranch near Langtry, in this county, were arrested and lodged in jail here today on complaint charging murder.

The complaint was filed by Mrs. Ed. Breiten in connection with the death of her husband, which occurred last November. At that time this entire section was startled by the disappearance of Mr. Breiten, who operated a ranch near the Babbs. Large rewards were offered for any information leading to the solution of the mystery of his disappearance. Breiten had formerly lived at Hondo and was highly respected as a citizen.—San Antonio Express.

Col. W. B. Odom returned Thursday from a visit to North Texas. He reports crops much further advanced here than in the sections visited.

To the Democratic Party of Texas.

On the 24th of May, the men of this State will perhaps decide for all time the question of enfranchising the women of Texas, white and black, for if the proposed Constitutional Amendment is adopted at the coming election, a permanent change in our electorate will be established, and if Woman Suffrage should prove undesirable its opponents will perhaps have lost the right of protest, the question having practically been closed at the polls.

If, as I hope, you are opposed to the Constitutional Amendment giving the ballot to Women in Texas, may I send our literature to you for distribution in your county, or will you appoint a reliable Anti-Suffragist generous enough to do this much to help save Texas from the demands of Socialism and the Menace of Bolshevism?

I invite your attention to the fact that Socialistic pressure menaced legislation at Austin to an alarming degree at the last session of the Legislature.

Socialists claim an increase of 100 per cent of Socialist ballots in New York since Woman Suffrage carried in that State. The New York Call official Socialist organ states: "Suffrage is the means by which to obtain Socialism. Socialism is an impossibility without Woman Suffrage."

Socialists claim and Suffragists admit the truth of the Socialist Slogan: "Every Socialist is a Suffragist". Anna Howard Shaw says: "We welcome every Socialist vote".

Make no mistake. The Soviet system in this country now has the official endorsement of the leaders of the Suffragist party.

An overwhelming majority against the proposed Constitutional Amendment is the objective of an intelligent warfare in this Campaign. This alone will insure a real and permanent Victory over Socialist-Feminist Rule in Texas.

Hailstorm at Eagle Pass.

Eagle Pass, as other places, enjoyed the blessings of a fine spring. Nature and the hands of the people had made the town and vicinity look beautiful. The recent rains all over the state did not benefit Eagle Pass for a hailstorm brought destruction to the vegetation. In a private letter from there Mrs. Theo. Kahlan writes April 10th:

"Tuesday evening between 6 and 6:30 p. m. high wind, fierce lightning and 8 minutes of hail made such a terrible noise that it sounded like the roar of cannon must sound. Every window pane in Ernest's room is completely smashed out and some of the others are broken too. The hail stones here were as large as hen's eggs and when hailing first started it sounded like some one throwing bricks at the back door. In 8 minutes it lay two inches thick on the ground and was piled up three inches against the wall on the porch. The front porch was completely covered too. Last night we had no telephone and no light. The city was dark. There was much damage done down in town as you will see from the paper clipping. It rained in torrents. It was very cold last night. Our corn and other small plants are broken into shreds. People say Eagle Pass has never witnessed anything of the kind before. It was dreadful. Our boy screamed when he saw all the windows falling in, and the terrible noise almost made me faint. The trees are half bare."

The E. P. Daily Guide says: "Within half an hour 1.63 inch of rain fell in Eagle Pass Tuesday morning between 2:30 and 3 o'clock, and on Tuesday evening 1.15 inch of rain fell again in half an hour. The hailstorm Tuesday night did \$50,000 damage, the glass damage alone in Eagle Pass is estimated to be twenty thousand dollars.

"Horses were knocked down, men were toppled over, goats were killed. "At Camp Eagle Pass every tar paper roof was turned into a sieve by the hail and the buildings were flooded.

"Consul W. P. Blocker sought new quarters for his family when the rain was pouring through the roof, in which the hail had beaten holes.

"The farmers of Maverick county are probably the greatest losers. Crops are a total loss.

ARE YOU GENUINE OR A CAMOUFLAGE PATRIOT---WHICH?

Analyze yourself! Are you a real, red-blooded American or are you a camouflage patriot? Do you really appreciate the great victory that our Government and our boys won for you? Do you realize that everything you have would be worthless or taken away from you and that you would have been little more than a slave if this victory had not been won? Have you stopped to think that thousands of men—big, strong, able-bodied men—have gladly died on the battlefield to give you the blessing of peace and victory? They gave everything—life, home, loved ones. Do you realize that there are thousands of mothers and sisters in our country who are broken-hearted today because they have lost their loved ones, but who proudly gave their sons and husbands to protect you and yours and bring victory?

How, then, are you showing your appreciation? Are you holding your War Savings Stamps and Liberty Bonds? Are you saving your money and lending it to your Government through the purchase of 1919 War Savings Stamps in order that the victory bill may be paid and the boys brought home?

Every time a War Savings Stamp is cashed that much money is drawn directly out of the United States Treasury—money that the Government had counted on using to pay the victory bill—a bill contracted in order that this would be a safe country for you to live in—money that it expected to use in feeding a soldier or sailor and bringing him back to the home-folks in Texas, Louisiana, New Mexico or Oklahoma.

A wise Government has made it possible for the owners of War Savings Stamps to cash their War Savings Stamps at the postoffice after giving ten days' notice. If one has had misfortune and has urgent need of his money all he has to do is ask the Government for it and back his money will come with interest for every day it has been left to the Government.

As an American, a patriot, one who loves his country, do you think the person is a real patriot, a sure-enough American, who at this time of the Government's great need cashes his War Savings Stamps if it is possible for him to hold them? Do you think he shows the proper appreciation of victory?

It was easy to be patriotic when the boys were in the thick of the fight, when the drums were booming the battle call, but the real test of patriotism is what one does now. Every person who can should hold his War Savings Stamps until the maturity date. Do you think a real American would cash his War Savings Stamps unless he was in dire need of the money?

War Savings Stamps are the safest investment in the world. They increase constantly in value and this constant increase is guaranteed by the Government.

Buy 1919 War Savings Stamps. They pay good interest. Save and have!

CANADIAN AVIATORS PROVED WISE BIRDS

When the members of the Royal Flying Corps, who trained in the Eleventh Federal War Savings District, returned to Canada, many of them had become enthusiastic buyers of War Savings Stamps. Having been given a taste of buying Government securities for small amounts, they became so insistent that the Canadian Government inaugurated a system of War Savings Stamps, similar to that in the United States.

"The leading men of the world today," recently declared a Canadian financier, "those charged with directing its affairs, realize that the exercise of thrift is absolutely necessary for the restoration of normal conditions in all countries."

"It is to be observed also that these men consider it as necessary for the people of the United States and Canada—countries undamaged by the war—to save as it is for those of France and Belgium to do so. It is the condition on which financial and industrial recovery is based."

Adequate Telephone Rates Are Needed, Too

Railroad Freight Rates have increased 27%

Railroad Passenger Rates have increased 26%

Street Railway Rates have increased 17%

Telephone Rates have increased only 4%

PUBLIC utility organizations have been forced to meet the same increase in the cost of commodities that have affected all industry, and that the public in general is meeting to-day when it purchases the necessities of life.

These high costs are reflected in railroad freight rates by an increase of 27% in five years.

They are shown in railroad passenger rates by an increase of 26% in the same period.

They are indicated in street railway rates, in American cities of more than 400,000 population, by an increase of 17% in the same time.

But telephone rates throughout the United States have shown so slight an increase in the period 1913-1918 that it can reasonably be said they have not reflected the increased telephone costs at all!

Yet telephone companies have faced the same unprecedented increases in the costs of labor and commodities that have made increased selling prices necessary in all business organizations.

This Company is operating its telephone property under the direction of the Postmaster-General for the United States Government and adequate telephone rates are needed to secure the necessary revenue to cover the increased cost of rendering the service.

Weekly Health Talks

The Many Mysteries of Nature

BY L. W. BOWER, M. D.

You can take an onion seed and a pansy seed, and plant them side by side in the same spot of ground. In one case, you get an onion, with its peculiar strong odor, and in the other you get a flower of rare beauty. You can plant a poppy seed and get opium (a dangerous, habit-forming drug), or you can plant a rhubarb seed and get something that helps constipation. No scientist, living or dead, can explain these mysteries of Nature. Behind the invisible life germ in each seed is hidden the deep secret that nobody understands. Everything growing out of the ground seems intended for some use in establishing natural conditions. Dr. Pierce, of Buffalo, N. Y., long since found out what is naturally best for women's diseases. He learned it all through treating thousands of cases. The result of his studies was a medicine called Dr. Pierce's Favorite Prescription. This medicine is made of vegetable growths that nature surely intended for backache, headache, weakening drains, bearing-down pains, periodical irregularities, pelvic inflammations, and for the many disorders common to women in all ages of life. Dr. Pierce's Favorite Prescription is made of lady's slipper root, black cohosh root, unicorn root, blue cohosh root and Oregon grape root. Women who take this standard remedy know that in Dr. Pierce's Favorite Prescription they are getting a safe woman's tonic so good that druggists everywhere sell it.

Favorite Prescription should have the full confidence of every woman in America because it contains no alcohol and no narcotic. Dr. Pierce knew, when he first made this standard medicine, that whiskey and morphine are injurious, and so he has always kept them out of his remedies. Send 10c to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y. for trial pkg. Tablets.

32 States will form the League of Nations; 13 others are invited to join. Mexico is not yet included in the list and was not represented in the conference of neutrals at Paris. Provision is made in the covenant, however, for the admission to the League of any fully self-governing country, which will give required guarantees upon a two-thirds vote of the assembly, composed of representatives of the member nations.

There are no harmful or habit-forming drugs in Cardui. It is composed only of mild, medicinal ingredients, with no bad after-effects.

TAKE

CARDUI

The Woman's Tonic

You can rely on Cardui. Surely it will do for you what it has done for so many thousands of other women! It should help. "I was taken sick, seemed to be . . .," writes Mrs. Mary E. Veste, of Madison Heights, Va. "I got down so weak, could hardly walk . . . just staggered around. . . I read of Cardui, and after taking one bottle, or before taking quite all, I felt much better. I took 3 or 4 bottles at that time, and was able to do my work. I take it in the spring when run-down. I had no appetite, and I commenced eating. It is the best tonic I ever saw." Try Cardui.

Some Tillage Pointers.

BY DR. F. H. KING.

From Irrigation and Drainage.

No amount or kind of tillage can dispense with water; that must be had, either from rain or snow, or be supplied by irrigation. With water enough in the soil to make a crop, good tillage will bring the most out of it; but when the rainfall has really been deficient, nothing short of irrigation can make the crop. —Page 121.

In those parts of the world where winter precipitation is not large, so as to over-saturate the soil, and so as to cause the running together of soils and thus destroy their tilth, fall plowing may be found very desirable when its chief object is to diminish surface evaporation during the winter and early spring, and where it is desirable to facilitate the ready and deeper penetration of the water into the soil which, during the growing season, has become dried to considerable depths. —Page 131.

Let it be remembered that it is the early stirring of the soil, rather than the early planting of the seed, which is the all-important point to be insisted upon. Nothing is gained by putting seed in a soil which is too cold; but several days may often be saved in bringing the soil to the right temperature by stirring a sufficient depth of it for the seed-bed, and getting rid of the surplus water which it contains by cutting it loose from the wet soil below, and at the same time concentrating the heat from the sun in this stirred layer, because loosening it has made it a poor conductor to the unstirred cold soil below it.

Even when ground is not to be planted until quite late, as in the case of corn and potatoes, it is a far better practice to plow as early as other labor will permit, than to leave it unstirred until near the planting time, because the early fitting develops plant-food and gets it in readiness for the crop; because it saves moisture; because it prevents clods from forming, and insures a more perfect tilth, and because it allows one and sometimes two crops of weeds to be killed before the planting. This last advantage is a very important one, because weeds can be killed much more cheaply and effectively when there is nothing on the ground in the way, and because it is a very wasteful practice to permit weeds to start in a field, to use up both the moisture and the plant-food which will be needed by the crop. It is much better to plant late, and take time enough to have everything in the best possible condition, than to rush the seed in early and expect to do the fitting and weed-killing afterward.

The importance of observing the practice here pointed out increases more and more as we pass from the more humid climates to the semi-arid ones. Be it remembered that it is important not simply from the soil-moisture side, but from the plant-food side as well; for plant-food cannot be developed in the soil without the right conditions of moisture, temperature and air, all of which are secured by early, thorough and frequent tillage before the seed is in the ground. —Pages 150 and 151.

The best depth of tillage will vary with the season. Early in the season it should almost invariably be deep, not less than 2 to 3 inches, but rarely should it be deeper than this. The deep stirring in the spring is to develop fertility by thoroughly aerating the soil and making it warm, so that the nitrates are rapidly formed. Later in the season the cultivation should become more and more shallow, until . . . it should be finally abandoned altogether. —Page 165.

Biliousness and Constipation.

"For years I was troubled with biliousness and constipation, which made life miserable for me. My appetite failed me. I lost my usual force and vitality. Pepsin preparations and cathartics only made matters worse. I do not know where I should have been today had I not tried Chamberlain's Tablets. The tablets relieve the ill feeling at once, strengthen the digestive functions, purify the stomach, liver and blood, helping the system to do its work naturally." —Mrs. Rosa Potts, Birmingham, Ala.

The peace treaty with Germany as drawn for presentation to the Germans contains a clause providing that former Emperor William be tried by an international tribunal. A separate tribunal will try other military officers. The trial of the former German emperor is for "a supreme offense against international morality and the sanctity of treaties" before a court of five judges named by the four allied powers and Japan.

should. Belching, sour stomach and bloating are symptoms of indigestion and are relieved by taking Chamberlain's Tablets as directed. Indigestion is usually accompanied by constipation and is aggravated by it. Chamberlain's Tablets cause a gentle movement of the bowels, relieving the constipated condition. Chamberlain's Tablets are also most excellent for biliousness. Sold everywhere at 25c.

In the San Antonio city primary election Monday the voters gave Mayor Sam C. Bell and the four city commissioners of his ticket, Ray Lambert, Andres Coy, Louis Heuerman and Phil Wright handsome majorities over the opposition ticket headed by Joseph Ryan.

Cause of Headache.

By knowing the cause, a disease may often be avoided. This is particularly true of headache. The most common cause of headache is a disordered stomach or constipation, which may be corrected by taking a few doses of Chamberlain's Tablets. Try it. Many others have obtained permanent relief by taking these Tablets. They are easy to take and mild and gentle in effect.

The Texas Legislature will be called in special session by Governor Hobby Monday to consider a law which proposes to permit discharged soldiers to vote on constitutional amendments to be submitted on May 24th.

Do You Enjoy Life?

A man in good physical condition is almost certain to enjoy life, while the bilious and dyspeptic are despondent, do not enjoy their meals and feel miserable a good share of the time. This ill feeling is nearly always unnecessary. A few doses of Chamberlain's Tablets to tone up the stomach, improve the digestion and regulate the bowels is all that is needed. Try it.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly upon the blood and mucous surface. Hall's Catarrh Cure is not a quick medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials, free. F. J. CHENEY & CO., Props., Toledo, O. Sold by Druggists, price 75c. Take Hall's Family Pills for constipation.

Mrs. Stanley Crabtree carried her little son, Leonard, to San Antonio Friday for surgical attention. Leonard is having trouble with cataracts growing on his eyes, and it is for the purpose of having them removed that he was carried to the city. It is also probable that an operation for the removal of adnoids and tonsils will be undertaken while in the city.

Andrew Spratt, the alcade of Spottsylvania, was in town Friday and dropped in this office where he is always welcome. He reports splendid rains in his section, corn and oats doing fine and the cutworms getting fat on the cotton, and is wondering what the brown bugs will do for something to eat when they come. Mrs. Spratt came down with Mr. Spratt as she knows the temptations that beset a young man when he comes to town alone.

You Do More Work,
You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.
GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.
GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.
The Strength-Creating Power of **GROVE'S TASTELESS CHILL TONIC** has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get **GROVE'S TASTELESS CHILL TONIC** when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

While at play Thursday evening, the little daughter of Mr. and Mrs. J. H. Meyer, picked up the ends of two electric light wires from which the lights had been disconnected. The wires happened to be charged at the time and the child's body completed a circuit and the result was a painful electric shock. Fortunately, the child was released before serious consequences resulted. Her hands were painfully burned, but as we go to press Friday she is doing well and will soon have recovered from her painful experience.

The Rain.
A fine rain totaling \$1.18 inches, fell here early Tuesday morning and shortly after dark Tuesday evening. The rain came at a very opportune time. While crops were not suffering with the possible exception of oats in some sections, people were becoming somewhat apprehensive, and the rain was very welcome.

The corn crop is very promising—probably never more so at this time of the year, and the good rain the first of this week will carry the crop a long way toward maturity, and if we are fortunate enough to get rain about the middle of the present month and another about the first of June a record breaking crop will be harvested this fall.

Farmers are complaining seriously of the ravages of cutworms in their cotton. In some fields the first crop has been practically destroyed, necessitating replanting. This is a serious problem for the farmers, as seed is both scarce and expensive.

On some of the farmers the harvesting of the oats crops has begun, and for the next twenty days the farmers are going to be about as busy as they well could be. Shortage of labor is also a serious problem confronting them, but with favorable weather conditions they will succeed in harvesting one of the best oats crops in years.

Old Medina county seems to be coming into her own again.

Cotton Facts For Cotton Producers.

The price of cotton is made by betting the price will be higher or betting it will be lower in some future month than it is to day.

Those betting on the price of cotton are controlled more by what the owners of cotton are going to do with it, than anything else.

Those betting will not bet the price any higher than the owners want for it, or ask or hold it for, but will bet it that high.

Just what per cent of a crop must be organized or controlled depends upon the size of the crop. Some say it depends largely upon the demand.

It took less than 200,000 bales for Dan Sully to control those betting in 1903.

GIRLS! WHITEN YOUR SKIN WITH LEMON JUICE

Make a beauty lotion for a few cents to remove tan, freckles, sallowness.

Your grocer has the lemons and any drug store or toilet counter will supply you with three ounces of orchard white for a few cents. Squeeze the juice of two fresh lemons into a bottle, then put in the orchard white and shake well. This makes a quarter pint of the very best lemon skin whitener and complexion beautifier known. Massage this fragrant, creamy lotion daily into the face, neck, arms and hands and just see how freckles, tan, sallowness, redness and roughness disappear and how smooth, soft and clear the skin becomes. Yes! It is harmless, and the beautiful results will surprise you.

L. L. HOOKS SAYS HIS TROUBLES ARE OVER.

Tanlac Built Him UP So He Is Now Working Hard Every Day.

"When I weighed the other day I found I had gained thirty-five pounds and that's only a part of what Tanlac has done for me," said L. L. Hooks, of North Roswell, Ga., in relating his experience with Tanlac.

"I suffered from such an awful case of stomach trouble," he continued, "that I could hardly eat a thing and nothing tasted right. The little I forced down didn't give me any strength and at times I would almost choke from the gas that formed in my stomach. I was so weak and miserable I just couldn't do any work at all and was just about all in."

"I commenced to take Tanlac because I saw the good it was doing others, and I could feel all the difference in the world right from the start; it simply made me feel like a new man. My troubles are now over, it built me up wonderfully and I am working hard, using pick and shovel every day, and never have any more trouble with my stomach."

Tanlac is sold by leading druggists everywhere.

PAINT AS AN ASSET.

Bankers Say They Lend More
Money on Property When
Buildings Are Well Painted.

AN INDICATION OF THRIFT.

One Concern Advances 25 Per Cent.
More if Repainting Is Done
Every Five Years.

Does it pay to paint carefully farm buildings? Does it add to the selling value of a farm when buildings are properly kept up and regularly painted? A careful inquiry of a number of leading bankers in the Mississippi valley, including such states as Iowa, Illinois, Michigan, Ohio, Indiana and Missouri, reveals the fact that in nearly every case the bankers did not hesitate to say that they would lend all the way from 5 to 50 per cent. more on land where farm buildings were well painted and kept in good condition. They maintain that well kept-up and well-painted buildings and fences are an indication of thrift and that the thrifty farmer is a good client, and to him money can be safely loaned. An average of the returns from these bankers shows that the increased loan value because of painted buildings is around 22 per cent.

Some of these bankers make interesting comment. A Michigan concern says that, while not especially prepared to advise definitely in response to this inquiry, the officers would loan more money on farms where buildings were painted than where they were not so treated. This bank also finds that where houses, barns and fences are well taken care of the farm is a profitable proposition, and bankers in general consider the farmer a good client. Another Michigan bank says "farm buildings out of repair and needing paint indicate that the owner is slow pay." Such farms are rated at about one-third of the assessed value for loans. Where the farm buildings are in good shape the rating is one-half. The president of a middle western bank says that when real estate loans are considered, painted buildings are always taken into consideration in making an estimate. The general appearance of the property surrounding the house and barn and also the fields and fences would be carefully observed. He further says that he has no hesitancy in saying that he would absolutely refuse a loan on farms where the buildings were not kept up and well painted. In his judgment, unpainted farm buildings would reduce the loan value at least 25 per cent.

A Minnesota banker says that he is much more willing to loan money where the buildings are well painted. In his particular case he believes that he would loan 20 per cent. more than if the buildings were not properly taken care of. A farmer who will keep his buildings painted takes a much deeper interest in his work than one who does not. Another Minnesota bank says that well painted buildings have resulted in securing from his bank sometimes as high as 25 per cent. more money than where the buildings are not painted. An Ohio concern says that it will loan 25 per cent. more money on a well kept farm where buildings are painted at least once every five years. A southern Illinois bank says that it has no fixed rule about this, but it does make a decided difference when owners of farm lands apply for loans. If the buildings are well painted and thus well preserved the loan rate would not only be cheaper, but the amount of money borrowed would be larger. A northern Illinois bank does not hesitate to say that it would loan fully 50 per cent. more on a farm where buildings were well painted and in good order than where they were not. The vice president, who answers the inquiry, goes on to say: "There probably are many farmers good financially and morally who permit their buildings to remain unpainted, but as a rule the most substantial people who live in the country keep their buildings well painted."

An Iowa bank, through its vice president, states that it would make a difference of at least 25 per cent. in favor of the farm with painted buildings. Another Iowa concern says that it would make a difference of at least 20 per cent.

All this being true, it is perfectly evident that it is a good business proposition to keep the farm buildings well painted. They not only look better and are more pleasing to the owner, but the farm would sell to better advantage, the loan value of the property would be greatly increased and the buildings themselves would last much longer and need less repair.—The American Agriculturist.

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

PLENTY OF PROOF.

From People You Know—From Hondo Citizens.

The greatest skeptic can hardly fail to be convinced by evidence like this. It is impossible to produce better proof of merit than the testimony of residents of Hondo, of people who can be seen at any time. Read the following case of it:

Mrs. Heyo Schweers says: "I suffered from an attack of kidney complaint; the whole trouble seemed to be with the kidneys acting irregularly. I believe the complaint was brought on by a cold settling in my kidneys. I got Doan's Kidney Pills at Windrow's Drug Store and after short use, the trouble was removed. It has never returned."

Mrs. Schweers is only one of many Hondo people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Mrs. Schweers had—the remedy backed by home testimony. 60 cents at all stores. Foster-Milburn Co., Props., Buffalo, N. Y. "When Your Back is Lame—Remember the Name."

PAINT AND ILLITERACY.

Curious Fact Comes to Light That Localities Least Using Books Avoid Paint Also.

Washington, D. C.—A curious fact has been brought to light by the Educational Bureau and the Bureau of Industrial Research here. It is that in the states where illiteracy is most prevalent paint is least used. The paint referred to is the common or barn variety, of course, for the backwoods countries have no need for the finer pigments or facial adornments. It is true, though, that in the sections of all states where white illiteracy is highest painted homes are rare and painted outbuildings and barns are practically unknown. Probably the illiterates do not use paint on their buildings because they do not understand its value as a preservative.

When the baby takes too much food the stomach turns; the result is indigestion, sourness and vomiting. Frequently the bowels are involved and there is colic pains and diarrhoea. McGEHEE'S BABY ELIXIR is a grand corrective remedy for the stomach and bowel disorders of babies. It is pure, wholesome and pleasant to take. Sold by W. H. Windrow.

Dizziness, vertigo (blind staggers), sallow complexion, flatulence are symptoms of a torpid liver. No one can feel well while the liver is inactive. HERBINE is a powerful liver stimulant. A dose or two will cause all bilious symptoms to disappear. Try it. Sold by W. H. Windrow.

Seen Celebrating, Perhaps.

"Why have you quarreled with Jack?"
"Because he proposed to me last night."
"Well, there's no harm in that, is there?"
"But I had accepted him the night before."

Sallow complexion is due to a torpid liver. HERBINE purifies and strengthens the liver and bowels and restores the rosy bloom of health to the cheek. Sold by W. H. Windrow.

DADDY'S EVENING TARY TAIL

MARY GRAHAM BONNER

ARMADILLO FAMILY.

"We belong to the family of armadillos," said the nine-banded armadillo.

"We're toothless mammals—that's what we are—and fine and unusual," said another.

"Ah, yes," said the first armadillo, "we're queer in every way, looks and actions. We're fussy about our food. We are delicate and lovely."

"I don't suppose we would really be considered lovely," said the second armadillo, "but we certainly are delicate, and only certain things are we allowed to eat. We're like folks who have pets, we are."

"It's fine to be like I am," said the six-banded armadillo, who was named Sir Nine.

"Let's each tell our own story," said the short Sir Nine.

"All right," agreed the three-banded armadillo.

"I'll come first," said Sir Nine, "because I spoke of it first."

"To be sure," said the others. "We're listening. We are all attention and ready to hear what you have to say."

"Then we expect the same attention from you."

"I certainly will give you my attention," said Sir Nine, "just as soon as I am through with my own tale."

"Tail! Tail!" said the others.

"I mean story," said Sir Nine.

"But you didn't say story, you said tail," the others said.

"Of course I did, but there is one of a tale which means a story, and that's the kind I'm about to be."

"We understand now," the others said. "Thanks for explaining. We didn't know at first what you meant."

"I can roll myself into a ball."

"Getting through with your own tail, but now of course we see. Yes, we quite clearly, and understand perfectly."

"Poor Sir Nine was becoming anxious for fear the others would not listen to him, but at last they were quiet and he began."

"I'm about the size of an opossum," said Sir Nine.

"We're about the same size," said the others.

"Oh, dear," he said, "am I never to have a chance at all? You said you would hear my story first, and I don't want more than two or three words from you interrupt."

"That's so," the others agreed. "We're dreadfully sorry and promise to do so again."

"Well," said Sir Nine, "where was I? Yes, I said I was about the size of an opossum." And this time the others did not interrupt.

"I have a horny shell with nine bands in the middle, all joined together and this shell is my protection. I don't live without it. Because there are nine bands in my shell I am known as the nine-banded armadillo. I live in holes in the earth, and my food is mixture of ants, snails, beetles, grasshoppers, worms and all other nice insects. I am called Sir Nine for short you all know."

"Well," commenced the six-banded armadillo, "I have heard almost the story of my own life and ways. My life is about the same as yours. I eat the same food, I dig in the ground to live there, and I have a horny shell which is my protection. There is just one thing about us that is different. I have six bands on my shell, and so am called the six-banded armadillo, and for short I am known as Sir Six. And one more thing which I almost forgot—my shell is even more bony than yours and it's a great deal stronger."

"It was time for the three-banded armadillo to speak. 'I am far more than either of you,' he said. 'There aren't so many of my family. I can do a number of tricks that neither of you can do.'

"I can roll myself into a nice little round ball and only my bony parts stick out which will protect me from the other animals. Yes I protect myself superbly in this way. Quite superbly."

"Why superbly?" the others asked. "It's always superb to live," said the three-banded armadillo, "and so I protect myself to live—see?"

The others nodded. "And," he continued, "I have only three bands and am named the three-banded armadillo, and for short I am called Sir Three as you all know."

And as all the stories had been told, they had a meal of ants, beetles and grasshoppers, for they all liked the food.

Meatless Mince Pie.

Meatless mince meat, another culinary triumph in the art of food conservation, has been brought to the housewives of the country by the national emergency garden commission as a worthy companion of pumpkinless pumpkin pie and gingerless gingerbread.

The new mince meat, officially described as a "camouflage," was tried on five hundred troops on a transport, who pronounced it perfect and called for more.

Half a package of seeded raisins, half a pound of prunes stewed with lemon juice and peel, one-quarter cupful sweet cider, four tablespoonfuls brown sugar; chop the raisins and prunes together and the result is said to be a meatless mince pie which will accord with the food administration's meatless Tuesday.

Sleeper Tax Hits Porters.

However patriotic may be the motive of the traveling salesmen and the general public who ride in sleeping cars, the negro porters assert they are bearing an unequal part of the new war tax, says the Kansas City Star.

Where the porter formerly received a tip of 25 cents for shining the shoes and brushing off his passenger, the negro says the tip now is only a dime.

"My tips have been reduced one-half," one porter said.

The government since the first of November has added 10 per cent to the sleeper fare as a war tax. As it now stands it is the porter and not the passenger who is paying the tax.

Icelanders Are Intellectual.

During the crisis which has been virtually continuous since 1874, the people of Iceland have acquired a stock of political acumen, which, augmented by high national intellectuality and literacy, fully qualifies them for a conflict with Denmark, says a writer. Iceland is among the first countries of the world in literacy. Few in the island can neither read nor write, and one author has declared that every other man on the street is a poet. Literature is not confined to any particular class—one of the most lucid descriptions of the land ever written is the work of a guide, while many fishermen write poetry of merit.

Use Paper as Fuel.

Every household in Italy saves all the odd bits of paper. These are soaked in water and incased into balls, then put in the sun to dry. They will serve to give a little heat later on. Walk down a fashionable street in Milan and you will see pyramids of these paper balls in the balconies of the houses of the rich—Exchange.

BEFORE AND AFTER.

Wife—You used to think there was nobody just like me.
Hubby—Now I'm sure of it.

Different Kinds.
Ambition sometimes has been known to start poor mortals wrong; The one ambition that they own Is just to loaf along.

How It Happened.
"Poor Cholly is so empty-headed I wonder what is the matter with him," "Oh, he was raised on a bottle."

"That doesn't explain it."
"Yes, it does; by mistake they gave him a vacuum bottle."

Taking Precautions.
The Salesperson—Yes, we can fix up a white flag for you. But what's the idea?

Henry N. Peck—I'll be late getting home tonight and I want to be sure my wife doesn't open fire on me.

His Feat.
"The steeplejack did a very contradictory thing in putting the weather signal on the church steeple."

"How so?"
"He was successful in a vane attempt."

Drawing the Line.
"So you are a burglar!" said the prison visitor.

"Yes'm. I like other people's property, but I haven't the heart to be an anarchist and get it by fough work."

The New Standard.
Friend—Haven't you sold your new book?

Novelist—No. The editor says it hasn't got enough action to make a photoplay.—Film Fun.

Fine Idea.
Grubber—I understand he was dissatisfied with his lot in life.

Hubber—Yes, but he mortgaged it and bought an automobile and now enjoys himself.

About the Same Thing.
Hewitt—Were you ever under a cloud?

Jewett—Well, I've walked with my wife when she had her big hat on.
